

CHRISTMAS TREE HIRE AND INSTALLATION BROCHURE 2026

Specialising in the finest quality artificial Christmas trees
and an ever-growing range of
complementing decorations and lighting

The Christmas Tree Company is a leading wholesaler and retailer of artificial Christmas trees throughout Australia, specialising in the finest quality and most realistic looking artificial Christmas trees.

Since 2017, we have expanded our product line to include a range of display pieces to both complement and enhance your Christmas display.

We take great pride in offering a comprehensive range of hire and/or installation services for special events, photo shoots, film productions or for the entire festive season.

We look forward to sharing our expertise and working with you to tailor the perfect package to suit your needs.

CHRISTMAS TREE HIRE

To ensure the installation process runs as smoothly as possible, please take the time to thoroughly read through the following information and then indicate your preferences and advise the necessary details for each category.

ARTIFICIAL TREE OR FRESH TREE

My Choice:

- ○ **ARTIFICIAL**
- ○ **FRESH**

For our installations, we predominantly use our Canadian artificial tree which was one of our very first designs and has been selected by installers across the country, used in countless commercial displays as well as being consistently selected by customers who have visited our showroom. With a mixture of PVC traditional and needle pine branches of three slightly varied shades of dark green, this tree is by far our most popular traditional style and most realistic dark green Christmas tree, labelled by our customers as a "timeless classic".

That being said, some people believe Christmas just isn't Christmas without a real Christmas tree for its fresh pine fragrance. We are home of the perfectly shaped real Christmas trees and can supply you with one of our beautiful fresh trees in a sturdy Cinco stand.

There are a few things to consider if you are thinking of choosing a fresh tree to ensure that your tree is looking fresh throughout the festive season. Your tree will need to be watered daily. The tree will also last better if it is situated away from sunlit windows, television sets and other heat sources as they will dry out your tree prematurely. Your real Christmas tree should last up to 4 weeks before drying out. For this reason, installation can be no earlier than 1 December to ensure that your tree lasts until Christmas. Depending on when you would like your tree dismantled, you may even decide to have your tree installed later in December.

GREEN, BLACK, WHITE OR SNOWFLOCKED TREE

My Choice:

- ○ **GREEN**
- ○ **BLACK**
- ○ **WHITE**
- ○ **SNOWFLOCKED**

The pine Christmas tree has been the symbol of Christmas for hundreds of years and there's still nothing that says Christmas quite like it. If you're looking to infuse any setting with an abundance of festive cheer, a traditional green Christmas tree will always do the trick.

However, you can have your own white Christmas right here in Sydney and enjoy a realistic snow effect for either your artificial or fresh Christmas tree that is totally non-toxic and biodegradable. Snowflocked trees are suitable for indoors only and cannot get wet.

Our snowflocked artificial trees have a mixture of dark green PVC and PE branches which provide a striking contrast to the bright white snow flocking and provide a very realistic impression of a tree covered in snow during Winter in the Alps with the "WOW" factor. For our fresh Christmas trees, the snowflocking will not affect the natural fragrance and may actually help the needles stay on longer.

The snowflocking will dust off onto the ground when the branches are brushed past or shaken, so if people may be tempted to play with the display, there may be a need for vacuuming or sweeping more regularly.

We also have a selection of black artificial Christmas trees that will add a hint of elegance and charm or white Christmas trees evoking a sense of purity and cleanliness alongside sophistication.

COPYRIGHT © 2026 THE CHRISTMAS TREE COMPANY. ALL RIGHTS RESERVED.
THIS INFORMATION OR ANY PORTION THEREOF MAY NOT BE REPRODUCED OR USED
IN ANY MANNER WITHOUT THE EXPRESS WRITTEN PERMISSION OF THE OWNER.

Size

Our trees are finished with one of our signature tree top stars in either gold or silver to suit your chosen colour palette. The finished height of our trees start at 6ft (1.8m) and our tallest tree available at the moment is 20ft (6m).

A 6ft tree is suitable for a break out space or kitchenette. A 7ft or 8ft tree will make an impact in an area with a standard ceiling height. A 10ft tree and above would be most suitable for a foyer or showroom.

Please be sure to check that the ceiling height at your premises is tall enough to fit the tree you have chosen.

My Choice:

- ○ **6FT**
- ○ **7FT**
- ○ **8FT**
- ○ **9FT**
- ○ **10FT**
- ○ **12FT**
- ○ **4M**
- ○ **5M**
- ○ **6M**

Lights and Decorations

Whether you prefer the traditional red and gold colour theme, a more modern copper and champagne colour scheme or a vibrant blue and silver, we are sure to have a colour palette that will suit your space.

Please select your preferred option for your decorations from our colour palette brochure that we have provided. We source, design, make and use only the very best quality ornaments and decorations. The decorations shown are an example of the colour palettes we have available but are indicative only and may vary depending on availability.

For orders secured prior to 15 September, a consultation process will be available for approval of your particular colour palette decorations if your palette choice is unavailable. For all orders received after 15 September, we may need to select your decorations based on your colour palette choice.

Our lights are available in warm white (which release a soft, 'warm' glow for the classic Christmas look and are most suitable to use on a green tree with traditional Christmas colours like red, green and gold) or bright white (which goes well with shades of blue, white and silver and look terrific on a snowflocked tree). Neither choice is better than the other; it just comes down to a matter of personal preference. Our lights, whether warm white or bright white, are able to be set to steady-on (not flashing) or they can twinkle.

Our lead wires are also available in many different colours to go from the lights on your tree to the nearest power point. Please advise the details of the floor covering (material and colour) and the distance from the tree to the closest powerpoint so that we can best match the lead wire and be prepared with the correct colour tape to secure if required.

My Choices:

Installation and Dismantle

Our installation team is available all year round, however we find most of our clients prefer the installation of their Christmas tree for the festive season from the beginning of November. Please advise the date of the Monday of the week that you would like your tree installed. After our schedule for the installation team is determined for that week (at the end of the week before, based on the weather forecast to allow for our outdoor installations), we will advise the particular day that your installation will occur during that week.

We ask that you also make a selection for the window for the dismantle of your tree. Please advise if there are any closures of your premises that we need to be aware of.

We require parking onsite for a van or truck for approximately 2 hours for the installation and approximately 1 hour for the dismantle. This time will vary depending on the size and quantity of trees ordered. If parking onsite is not available, an additional fee will be charged.

Price Guide

The prices quoted exclude GST and are based on indoor installations in the Sydney Metropolitan area. Prices include the hire of the Christmas Tree or the purchase of a Fresh Tree with the hire of a stand, installation with lights and decorations (providing there is power available) and then dismantle and removal after Christmas. The price is based on availability for a truck or van to be in a loading area for the time needed, which will vary depending on the size and quantity of trees. If there is no allocated parking area, there will be an additional fee. As an indication, for a 6ft – 10ft tree, the additional fee would be $100 (this covers the installation and removal). Installations in postcodes 2000-2002, 2006-2007, 2008-2010 and 2060 incur an additional fee of $100+GST.

Please provide photos of the proposed location of the tree when returning your request. Any variations to the prices quoted will be advised when confirming your order.

My Choice:

INSTALLATION DURING WEEK COMMENCING:

- ○ **2 NOVEMBER 2026**
- ○ **9 NOVEMBER 2026**
- ○ **16 NOVEMBER 2026**
- ○ **23 NOVEMBER 2026**
- ○ **30 NOVEMBER 2026**
